## EDUCATION

**BEZALEL ACADEMY OF ARTS & DESIGN**
B.Des., Visual Communication (2012-2016)

## EXPERIENCE

### Freelance Motion Designer
**Self-employed · 2025 - present**

- Lottie/Bodymovin and code-based animations for web and product, optimized for file size and runtime, with clear motion specs for dev handoff
- Performance marketing video for Dappas, Elementor, Loora, Noma Security and Notch.io
- AI-assisted production, from generated footage to full AI video ads

### Senior Marketing Designer, Video Lead
**AI21 Labs · 2022 - Jul 2026**

- Ran motion and video marketing for a generative-AI company, from launch campaigns and UGC-style ads to product explainers and UI animation
- Built video production workflows for B2B and mobile ads that sped up delivery
- Tied video to growth goals with marketing and product, shaping messaging and visuals

### Head of Product Creative
**Lightricks · 2021 - 2022**

- Directed 13 designers (motion, graphic, 3D) across multiple products
- Owned UX/UI animation and in-app motion, setting shared animation standards (easing, timing, transitions) for launches with PMs and research

### Design Team Lead
**Lightricks · 2017 - 2021**

- Led 6 motion and graphic designers producing tutorials, feature content and UI animations
- Designed effects, filters and 3D assets used by millions across flagship apps, launching new creative categories that boosted downloads and subscriptions
