Ariel Paz

Senior Motion Designer & Video Creator | Brand, Growth & Viral Content

Senior motion designer and video creator with 9+ years producing high-impact video, motion graphics, and brand campaigns for fast-moving tech companies.

Fluent across the full creative pipeline: concept, shoot, edit, motion, and AI-assisted post-production. Comfortable owning a project end to end and moving from idea to published asset quickly. Based in St. Gallen and looking for a creative role.

Work permit: B (EU/EFTA family), expected Nov 2026

EXPERIENCE

Freelance Motion Designer

Self-employed · 2025 – present

- Motion graphics and performance video for Dappas, Elementor, Loora, Noma Security and Notch.io
- AI-assisted production across campaigns, from generated footage to full AI video ads
- Lottie and code-based animations for web and product, built for clean dev handoff

Senior Marketing Designer, Video Lead

AI21 Labs · 2022 – Jul 2026

- Led motion and video campaigns across platforms, from branded content to UGC, all tied to growth goals
- Built video production workflows for B2B and mobile ads, which sped up turnaround and delivery
- Worked with marketing and product so messaging and visuals served brand and business strategy

Head of Product Creative

Lightricks · 2021 – 2022

- Directed 13 designers (motion, graphic, 3D) across multiple products
- Owned UX/UI animation, in-app content and animated storytelling, and set creative strategy for launches with PMs and research

Design Team Lead

Lightricks · 2017 – 2021

- Managed 6 motion and graphic designers producing tutorials, feature content and UI animations
- Designed effects, filters and 3D assets used by millions across flagship apps, and introduced new creative categories that boosted downloads and subscriptions
